Made with GAMMA

One-Tap File Conversion With Clean UI

FigPDFConverter offers simplicity with precision. Its smooth, user-friendly interface allows anyone to convert files into professional-quality PDFs with just a single tap.

It ensures flawless formatting for Word documents, images, Excel sheets, and PowerPoint presentations.

Made with GAMMA

Data Privacy and Secure Offline Access

No Third-Party Uploads

Files are never uploaded to external servers without consent.

On-Device Conversion

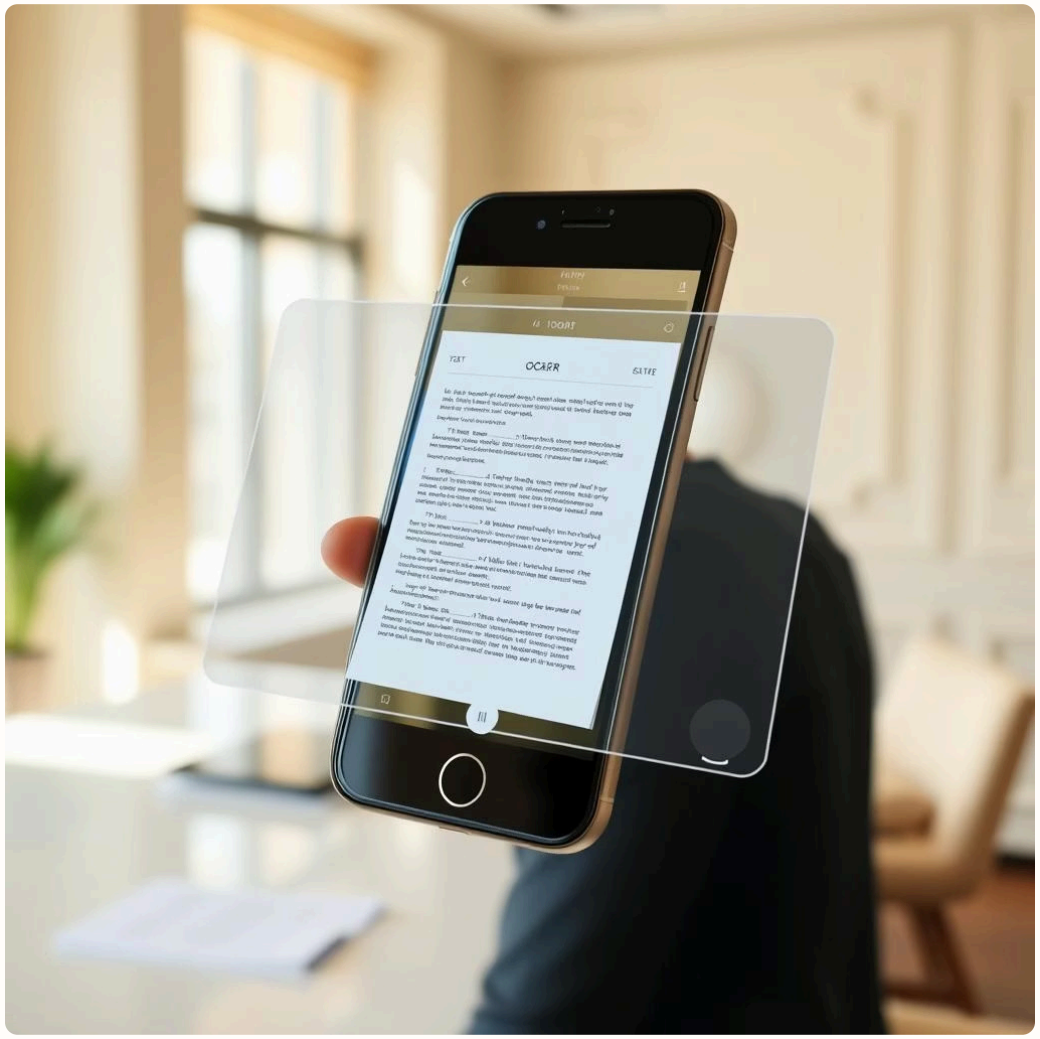
Many conversions happen directly on your device, reducing data risks.

Confidentiality

Ideal for legal, HR, and corporate users handling sensitive documents.

Made with GAMMA

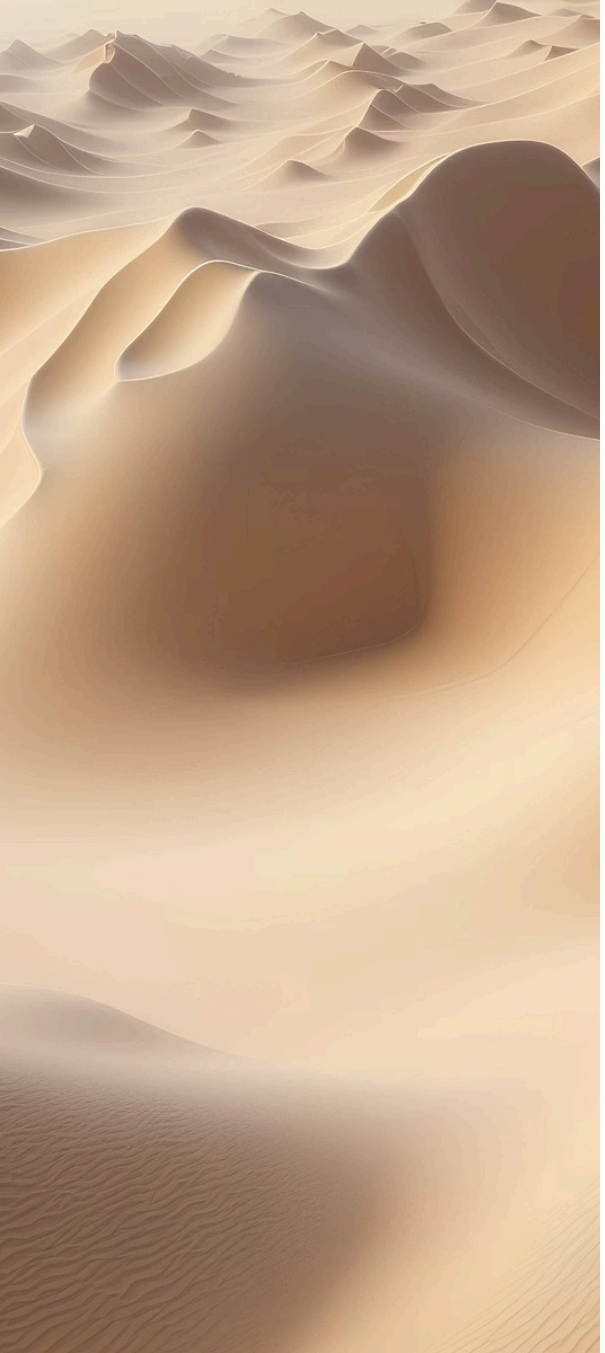
Scan-to-PDF Function With OCR Intelligence



FigPDFConverter simplifies paper document management with real-time scanning and OCR (Optical Character Recognition).

Point your camera at a document, and the app automatically scans, straightens, and converts it into an editable PDF. Perfect for notes, invoices, and archiving.

Made with GAMMA



Multiple Format Support With Batch Conversion

Extensive Format Support

Supports over 15 file types, including DOCX, JPG, PNG, XLSX, HTML.

Bulk Conversion

Convert entire folders of reports into a single merged PDF efficiently.

Time-Saving

Switch formats in bulk, saving time and boosting productivity without crashes.

Made with GAMMA

Fast, Lightweight & Device-Friendly

FigPDFConverter is lightweight, fast, and easy on battery and storage. It ensures smooth performance without excessive ads or background processing.

This optimization makes it highly reviewed, even on mid-range smartphones.

Made with GAMMA

Annotation and Editing Tools

Built-in Editing

Highlight, draw, erase, add text, and insert signatures directly in the app.

Mini-Document Editor

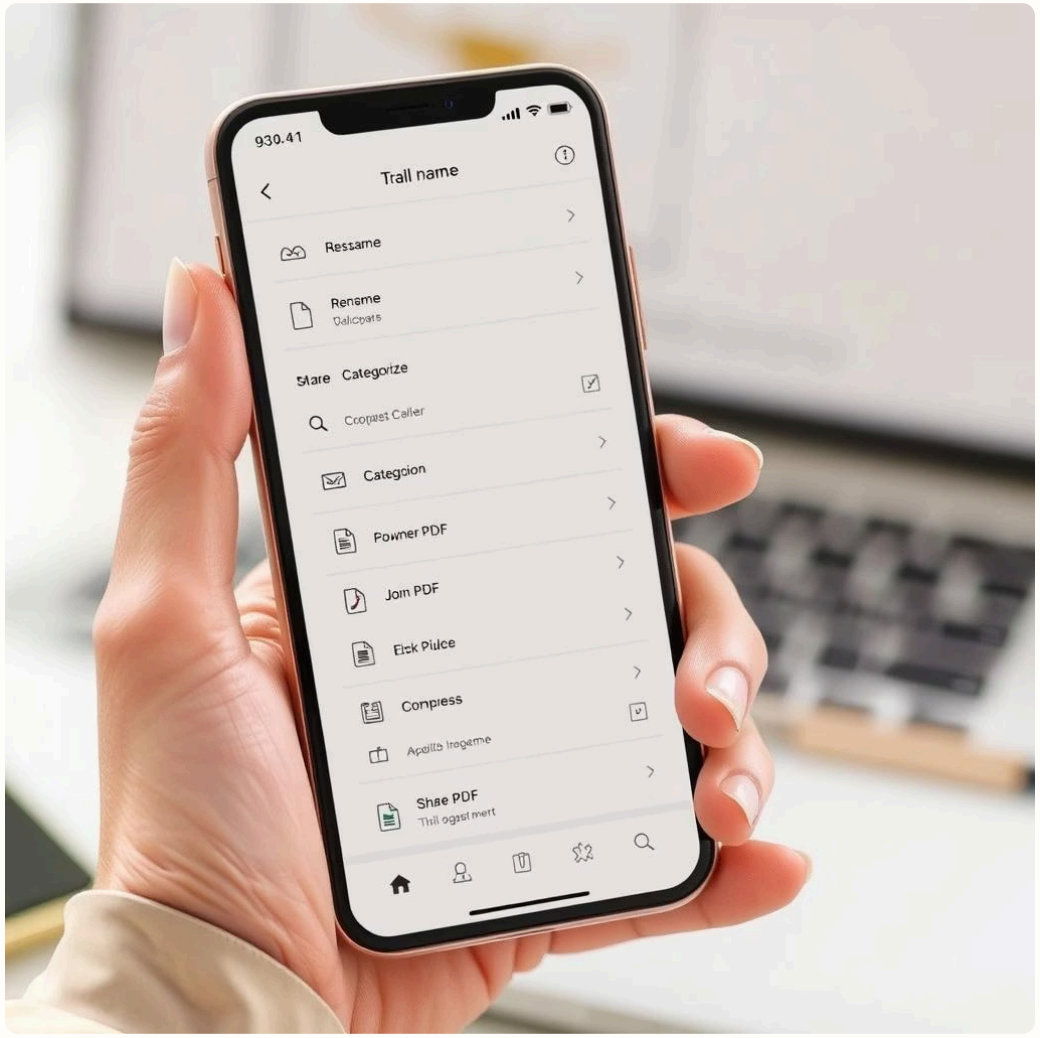
Reduces reliance on external tools for reviewing contracts or adding comments.

Boosts Efficiency

Enhances productivity for professionals and academics.

Made with GAMMA

Seamless File Management and Sharing



After conversion, easily rename, categorize, compress, and share PDFs via email or messaging apps directly within the app.

It also offers local storage management, keeping your workspace clean and organized. Ideal for remote workers and freelancers.

Made with GAMMA

Smart Optimization for Print and Web

Automatic Adjustments

Adjusts resolution, margins, and layout for print and web uploads.

Professional Output

Ensures PDFs look clean, readable, and professional across all devices.

Versatile Use

Beneficial for business reports, marketing brochures, and online resumes.
